File Naming

File naming is very important. Please use the following naming convention: <Paper ID>.pdf.

Step 5: Final submission of IEEE *Xplore-compatible PDF*

Convert the final paper to a PDF using settings compliant with the requirements of the IEEE Xplore digital library. For this purpose, use the IEEE PDF eXpress web tool. PDF files generated in a different way might not be IEEE Xplore-compliant and could be rejected.

The instructions to generate an IEEE Xplore-compatible PDF file using the IEEE PDF eXpress web tool are listed below. https://ieee-pdf-express.org/

Go to PDFeXpress® website (https://ieee-pdf-express.org), and:

1. Create an IEEE PDFeXpress® account, entering basic contact information; you will receive an email confirming account creation.

2. Upload a PDF for Checking or source file(s) for Conversion; you will receive an email confirmation of file receipt.

3. Submitted PDFs are Checked for IEEE Xplore®-compatibility; source file(s) are Converted to IEEE Xplore-compatible PDFs. If you submit a PDF, you will receive an email stating whether it passed or failed the Check. If the PDF fails, the email includes a PDF Check report. The author goes to the account and clicks "Understanding the PDF Check Report" for solutions. If the source is submitted, you will receive the IEEE PDFeXpress®-generated PDF as an attachment and through your IEEE PDFeXpress® account. Review the PDF to ensure that it views on screen and prints as you intended.

4. If necessary, revisions may be submitted (PDF or source); return to Step 2. *Make sure that there are no grammatical, spelling, or content errors in articles prior to submitting to PDFeXpress.*

5. When you have an acceptable IEEE Xplore-compatible PDF, submit this final PDF to the conference by clicking the Approve button.
